

Another Way

he found himself another way
wrapped himself in a simple cloth from yesterday
and ridded himself of the burdens
that this modern life inlays
he found himself another way

'cause he knew well that Jesus was a medicine man, who gave it all away
who healed the sick with a medicine hand, he found another way
and anointed sinners with the oil from a medicine plant
Jesus was a medicine man

he found himself another way
wrapped himself in a simple cloth from an earlier day
and ridded himself of the burdens
that this modern life enslaves
he found himself another way

Gandhi was a worldly man, who gave it all away
who healed his people with a peaceful hand, he found another way
who freed the enslaved masses with a non-compliant plan
indeed he too was a medicine man

there is this life they mandate you
and then there is the real truth
there is a role they make you play
and then there is another way
here's hoping that you find yourself another way
another way
