

Back To The Wild

I can't take another 30 second spot
telling me what I need and haven't got
about another chemical or plastic food
to fill the space between the walls
of my head and body

Just another plan to make it right
just another black against the white
just another plan to tie the hands
of all the men under the man
above the flag, above God

Goin' back to the wild
back to the wild
Goin' back to the wild
back to the wild

I can't take another deforestation
can't take another fertilization
can't take another liquidation
or fascination with radiation
I've had my ration of civilization

Goin' back to the wild
back to the wild
Goin' back to the wild
back to the wild

I can't take another 30 second spot
telling me what I need and haven't got
about another chemical or plastic food
to fill the space between the walls
of my head and body

Goin' back to the wild
back to the wild
Goin' back to the wild
back to the wild
