

## **I, Said I**

I, said I  
will not stand down  
I, said I  
will stand my ground  
you can beat me up,  
let your truncheons pound  
but I, said I  
will not stand down

I, said I  
will not stand down  
I, said I  
will stand my ground  
you can march your army over this hallowed ground  
but I, said I  
will not stand down

I, said I will speak my mind  
you'll find me in the firing line  
a single voice of a sovereign man  
standing on my side of the line in the sand

I, said I  
will not stand down  
I, said I  
will stand my ground  
unleash your dogs,  
let you war drums sound  
but I, said I  
will not stand down

I, said I will speak my mind  
you'll find me in the firing line  
a single voice of a sovereign man  
standing on my side of the line in the sand

I, said I  
I, said I  
I, said I  
I, said I  
will not stand down
