

Islandize

hey, island eyes
the sunlight on your skin
the seagull flies
hey, you mesmerize
and the world flies by
when you islandize

the water gives the sunrise to the skies
the rhythm of the surf and the seagull cries
with these memories of love
and last goodbyes
a life goes by
island eyes

hey, young beauty have your fun
enjoy the days of laughing in the sun
for the day sails past you
then it's done

hey, islandize
the glow of morning opens to blue skies
but as the endless summer fades you realize
that all life once lived will surely die

hey, young beauty have your fun
enjoy the days of laughing in the sun
for the day sails past you
then it's done
so, islandize
