

## Mind Blown

my mind's been blown  
but I'm not crazy  
no I'm not crazy  
a seed is sown  
an answer lies  
and deeper whys  
reveal unknown

an eagle flies  
with hidden plans  
but never lands  
a metallic bird  
flying clear  
won't disappear  
no matter what you've heard

there is a darkness in this world  
that leads us spinning in the night  
deceit is deadly, paralyzed by our own plight  
but you know darkness fears the light

my mind's been blown  
my mind's been blown away

there is a light left in this world  
a brave companion in the fight  
a life is lived and passed, a candle in the night  
and the darkness fears the light
