

## Off You Fly

So long  
and goodbye  
so strong  
and high  
you lived so well  
we laughed, we cried  
so long  
and goodbye

Slow down  
and drift away  
one last breath,  
one last day  
your worries fade  
you don't need to try, anymore  
just let go  
and off you fly

off you fly

So long  
and goodbye  
one last breath,  
one last cry  
your struggle's over  
you don't need to try, anymore  
just let go  
and off you fly

off you fly

Just let go and off you fly
