

## On Fire for You

Give me hope  
or drench this thirsty fire for you  
take me home  
these eyes, this heart desire for you

Give me breath  
give me red instead of blue  
let me drink  
drench this burning fire for you

In a dream at last  
we forget the past  
but, it's over before it's through  
so we only smile  
for a precious while  
in a dream where the cold winds blew  
out the fire for you

The list of things I have to do  
keeps my thoughts away from you  
but for song, I wouldn't make it through  
my heart remains on fire for you

On fire for you  
On fire for you
