

## Shout 'Em Down

even though they're loud  
shout 'em down  
they're delusional but strong  
shout 'em down

they're coming for your free will  
they're coming for your rights  
they think their group think, non-thinking skills  
somehow makes 'em right  
resistance is essential  
if you value personal choice  
'cuz the zealots maybe the minority  
but, they make the biggest noise  
shout 'em down

they're coming for your freedoms  
they've got you in their sights  
they're coming for your choices  
armed with bibles, korans and other tripe  
resist their hypocrite souls  
and stand up and fight  
like worms, they're inching, inching, inching, inching  
to the light  
shout 'em down

evolution and over population  
will surely doom their cause  
for every fertilized egg is sacred  
but, state murder knows no pause  
iron fisted control  
and arrogance resounds  
but, this fight is just beginning  
this fight will turn around  
shout 'em down

this is war, shout 'em down  
this is war, shout 'em down
