

Somethin' Happy

Look away and say your blind
look ahead and die behind
use your head and not your mind
you'll feel good, yea, you'll be fine

Salivating dogs, juicy meat, dollars fly on by
like the dreams that collide where the brain cells die
all alone in a room of how's and why's and who's and where's and when's

I gotta write somethin' happy or I'm gonna starve
but, I might die laughing if they harvest me
don't eat the boomerangs if you please
they're part of the collection of part of the trees

Monetary collapse, civil wrongs, deadly ax
poisoned water, concrete, black air, man attacks
advanced life in the sea, quality that we lack

Oil burners, waste kings, mental midgets, TV time
talk shows, game shows, money suckers, elected slime
money smiles, flapping lies, pouncing on the prime time rhyme

Savior save us, save Earth, save the day
from the hoards, from the beast with the deadly ways
start again, try again, different blend
can we mend our ways?

Telephone, teleshop, telewar, telegod
bad laws, bad blood, Aids money, look for pods
look around, get sick, wanna die, call the Godsquad
brain prod, lightening rod façade

High altitude bombs, smart bombs, video war
camera man, news man, in the can video store
skud man, arab man, oil spill on the shores
of the new war to end war, the clean war

Salivating dogs, juicy meat, dollars fly on by
like the dreams that collide where the brain cells die
all alone in a room of how's and why's
