

## Somewhere Else

Can you tell me what I'm thinkin' baby  
can you tell me where I've been  
can you tell me what you're thinkin' baby  
can you tell me where you've been  
you and I went our separate ways  
how the hell did we get back together again  
can you tell me what you're thinkin' baby

Give me blue skies and give me freedom  
and give me roads I ain't walked or driven on  
give me new love or give me no love  
but, give me something, nothing or everything  
that I ain't seen before  
get me out of here

Can you tell me where the hell am I  
can you tell how I got here  
can you tell me where the schedule is  
I'm late, I'm late I fear  
can you tell me where the hell's my hair gone  
and why it seems so hard to breathe  
how can you know just where I'm going  
when I don't know where I've been

Give me blue skies and give me freedom  
and give me roads I ain't walked or driven on  
give me new love or give me no love  
but, give me something, nothing or anything  
that I ain't seen before  
somewhere else
