

Warning

warning, warning
this is a warning
and not everything is gonna be alright
it's storming, storming
the skies are storming
and this picnic in the sun is in its sights
and not everything is gonna be alright

warning, warning
warning warning

warning, warning
this is a warning
and not everything is gonna be alright
it's storming, storming
dark clouds are forming
and the land of light is headed for its night
and not everything is gonna be alright

warning, warning
warning warning
warning, warning
warning warning

warning, warning
this is a warning
and not everything is gonna be alright
it's storming, storming
skies are storming
and this picnic in the sun is in its sights
and not everything is gonna be alright
and not everything is gonna be alright
