

Wasted Lives

don't let them deal you a broken dream
don't let them sell you any scheme
be your own guide, live your life
help your brothers, love your wife
don't waste your life

don't let them program you to concede
reject any ideology that says you must believe
be your own guide, live your life
help your neighbors, sheathe your knife
don't fall into their strife
don't waste your life

do not let the system grind you in its gears
don't be a tool or be fooled by their fears
be your own man, chin up high
be the one that they can't buy
don't waste your life

stand up for yourself, be a man
defend the weak from predators with a strong hand
be a wise man, live your life
be free or die, love your life
don't fall for plastic strife
don't waste your life
don't waste your life
