

## When You Were Real

I had a dream  
and she looked a lot like you  
I had a dream  
and she tasted just like you  
I had a dream  
and she screamed just like you  
I had a dream  
and she had me  
just the way that I had you

When you were real  
when I could feel  
back before when you had me  
and I had you  
and everything was new and full of zeal  
back when you were real

I had a dream  
or did the dream have me  
I had a dream  
who woke me suddenly  
I have these memories  
and lies only I can see  
I had these dreams  
or were they wishes  
wished away carelessly

Back when you were real  
when I could feel  
back before when you had me  
and I had you  
and everything was new and full of zeal  
Back when you were real  
when I could feel  
back before when I was me  
and I found you  
and everything was new and full of zeal
